

CO ₂ HEATER					
Order No	Gas Type	Gas Inlet Connection	Gas Outlet Connection	Working Pressure	Voltage/Power /Frequency
Y510	CO ₂	W 21,80 x 1/14"	W 21,80 x 1/14"	230 bar	230 V 75 W 50Hz
Y511					230 V 150 W 50Hz

TECHNICAL SPECIALITIES

- It has been designed to prevent Carbon Dioxide pressure regulators from overcooling
- The outer surface of the heater is covered with a protective guard.
- All heating operations provided by the carbon dioxide heater are to prevent the gas flow from being cut off
- The carbon dioxide heater thermostatically controls the thermal value and prevents the heater from going above 85 °C.
