× 1 Pair × 10 Single Polybags × 5 Master Polybags **50** Pairs / Carton

Features

- **Cushioning:** Active Gear insoles provide excellent cushioning, reducing the impact on your feet when walking or standing for extended periods.
- **Shock absorption:** They absorb shock and help distribute the force evenly, which can reduce the strain on your feet, knees, and lower back.
- **Arch support:** Designed with arch support, which can help alleviate arch pain and discomfort associated with flat feet or high arches.
- **Pain & Pressure relief:** Active Gear insoles help relieve pressure points on the soles of your feet and help alleviate foot pain and discomfort.
- **Improved stability:** enhance your stability and balance, reducing the risk of slips and falls.
- **Breathability:** indole materials to help keep your feet cool and dry, reducing the chances of moisture-related foot issues.
- **Long-lasting:** High-quality gel insoles are durable and can withstand daily wear and tear for an extended period.
- **Cleaning instruction:** Hand wash in warm soapy water (30°C). Dry flat, away from direct heat, Not recommended for machine washing.
- **Antibacterial insoles** for better hygiene
